

# Seedling Display Instructions

## Earth Day Seedling

These seedlings are greenhouse-grown and come in degradable ready-to-plant sleeves, featuring a dense air-pruned root structure. Packaged in printed compostable bags with recyclable species care tags.

## UNPACK IMMEDIATELY

### Remove Seedling Tray

Take out the seedling tray from the shipper box.

### Unfold Display

Extract the display from the shipper and unfold it.

### Shelf Life and Care:

- Shelf life: 2+ weeks. Water if dry or every two weeks from receipt.
- Unpack and display immediately. Keep at consistent temperature away from sunlight or heat sources. Water or mist if dry.

### Planting:

- Plant outside once ground unfreezes.
- Make a hole only as deep as plug's root ball.
- Place plug in hole, ensuring top is level with soil.
- Carefully tuck soil around roots, patting gently to remove air pockets.
- Water regularly to maintain soil moisture.

### Place Tray in Display

Position the seedling tray within the display.
