LANDSCAPE CATALOG

OUR FARM

Dutchman Tree Farms is a tree farm located in beautiful Northern Michigan, family-owned and operated by Joel and Gale Hoekwater and Chris and Sarah Maciborski. Joel and Sarah's "Grandpa John" planted the first tree on the farm in 1960. Sarah's father, Steve Vanderweide, the "Dutchman", began selling the Scotch Pine planted by his father, at the Atlanta Farmers Market in 1972. Over the past 50 years, Dutchman Tree Farms has evolved to meet the demands of a changing market. Driven by an old-fashioned work ethic, our knowledgeable workforce is dedicated to all aspects of growing trees and ensuring quality products and services. This growing farm and family are in the 5th generation.

CHRISTMAS 2022

DUTCHMAN
TREE FARMS
YEAR
ANNIVERSARY

50 Years! It is a blessing to continue our family business with our up-and-coming 5th generation!

We are truly blessed to be able to work with our families, employees, and loyal customers. We are thankful for the continued dedication, teamwork, and quality we have achieved over the past 50 years.

We value each and every one and know that it truly takes a team, from the owners to the employees, to the customers.

By achieving this success, we can carry on the tradition of providing beautiful trees for families to celebrate the true spirit of Christmas.

Thank you for your continued loyalty and support.

Merry Christmas & God Bless,
Joel & Chris

CARING FOR YOUR TREES

Fresh cut Christmas trees, like fresh cut flowers, must be cared for to maintain their freshness and quality. Caring for your trees begins the moment the truck arrives.

Hand trees off the truck; throwing trees off the truck may result in damages such as broken tops and branches. Always hand trees down butt first, counting the trees as they are being unloaded.

Unbale trees; removing the netting will allow the tree to open, which will naturally protect the delicate underside of the branches from sun exposures and permit healthy air flow.

Stand trees upright in the shade; avoid placing trees in direct sunlight, against south facing walls, or on black tops. If possible, use a breathable shade cloth.

Rotate stock; replenishing your display stock will not only help you sell more trees but will help maintain freshness.

For questions concerning your order or delivery please contact your representative within 72 hours of delivery.

FRESH CUT CHRISTMAS TREES

BIG TREES

Available in Fraser Fir, Douglas Fir, Concolor Fir, and Blue Spruce. Dutchman Tree Farms reserves the right to a 3 to 5-foot variance in height difference from the pre-harvest quote. Customers will be charged for the actual height of the tree according to an after-harvest measurement. Customers purchasing trees over 30 feet will be provided with a photograph for final approval.

DOUGLAS FIR

BALSAM FIR

Dark green and fragrant foliage, soft needles and a straight stem make this tree highly desirable. Its strong branches can hold even your heaviest ornaments.

BLACK HILLS SPRUCE

Known for its darker green color and many layers with short, stiff, blue-green needles. Favored for its conical shape and deep green foliage.

BLUE SPRUCE

Popular for its attractive bluish foliage. Needle color can be blue-green to the "Shiner" silvery blue. Easy to decorate with stiff, strong branches and a desirable pyramidal shape.

CONCOLOR FIR

This elegant tree presents itself in an upright, sweeping manner with its silver-green foliage. It has medium length needles and excellent needle retention.

DOUGLAS FIR

Soft needles and sweetly fragrant, the Douglas Fir has dark green to blue-green foliage, moderately strong branches and excellent needle retention.

GRAND FIR

This fragrant tree has glossy, almost waxy, dark green needles that are long, flat and fairly spread out, giving the conical shaped tree a beautiful and unique feathery look.

FRASER FIR

The dark green needles, frosty underlying glow, and pleasing fragrance, make this a desirable tree. Beautifully shaped with strong, slightly upturned branches and excellent needle retention.

SCOTCH PINE

A traditional favorite known for strong branches and excellent needle retention. Medium length needles known to hold up well in warmer climates.

WHITE PINE

The beautiful, soft long needles create a warm and inviting feel. Known for its elegance and symmetrical shape.
